Please be advised that the below listed patient was seen in our office. A rapid Covid-19 antigen swab was performed. Below are the date and time stamped results. **Report is not valid unless stamped by doctor / provider and license number.** Thank you.

This test has been authorized by the FDA under an Emergency Use Authorization (EUA). This test is only authorized for the duration of time the declaration of the emergency use of diagnostic tests for detection of SARS-CoV-2 virus and/or diagnosis of Covid-19 infection under section 564(b) (1) of the Act, 21 U.S.C. 360bbb-3(b) (1), unless the authorization is terminated or revoked sooner.

When diagnostic testing is negative, the possibility of a false negative result should be considered in the context of a patient's recent exposures and the presence of clinical signs and symptoms consistent with Covid-19. An individual without symptoms of Covid-19 and who is not shedding SARS-CoV-2 virus would expect to have a negative (not detected) result in this assay.
